Those Who Will Attend During the Spring and Summer Terms

Teachers and prospective teachers who wish to do work:

1. To be credited on Normal Certificate (a five-year state license).
 2. To be credited on Normal Diploma (a professional life license).
 3. To be credited on Normal (B. S.) Degree.
 4. To secure special training in Home Economics, Manual Training, or in other subjects.
 5. To secure credits for high school units.
 6. To secure credits for advance standing in other colleges.
 7. To secure general or particular professional training for better teaching.
 8. To secure renewal or extension of a county or state license, or a special license.
 9. To secure validation of an A. H. S. diploma for first grade license.
 10. To prepare for the State Primary examination.
 11. To prepare for the regular State examination at close of sixth and seventh terms.
-

Many teachers find it profitable to come to the Normal College each spring immediately after the close of their schools. The work of the Fifth Term (beginning March 5) of the Sixth Term (beginning April 16) and of the Seventh Term (beginning May 28) is planned to suit the needs of these teachers as far as it is possible to arrange it, and in this way those who are actively engaged in teaching find it possible to carry forward their Certificate, Diploma or Degree courses without having to lose a session from teaching. See schedule for 5th, 6th and 7th terms in this book.

Teachers who plan to come for the spring or summer terms for regular credit work should write for a credit blank and enter thereon any high school or college work they have completed elsewhere. By presenting this blank in advance, or on entrance, they will receive due credit for this work if it was done in a reputable college or a standard high school.

HIGH SCHOOL GRADUATES.

Graduates of county Agricultural High Schools and of other 15-unit high schools on the State accredited list will be given full credit for their high school work and will be able to complete the Normal College Certificate Course in four terms, that is, in six months.

In view of the urgent need of more trained teachers in Mississippi, it is thought that many of the high school graduates of the State will decide to enter the teaching ranks.

The Normal College will be glad to welcome these graduates for work during the Spring and Summer Terms.

POINTS WORTH NOTICING

Healthy Location.

Hattiesburg is a healthy city. The college has had no case of typhoid fever during its history. Nor has there been any deaths from any cause thus far.

Moral Influences.

Hattiesburg is a community of good schools and churches. There are in the city more than a dozen prosperous churches with flourishing Sabbath Schools whose doors are wide open, with a cordial invitation to all Normal College students to take part in the worship. There are also Y. M. C. A. and Y. W. C. A. organizations, and other Bible study and prayer meetings in the college. It is the custom to have a sermon in the college chapel each Sunday evening.

Street Car Service.

There is a convenient street car service (with station at the college) from 6 a.m. to 11 p.m. that enables one to go into the city when necessary.

Library and Reading Room.

Books and periodicals to the value of several thousand dollars are contained in the college library, and these will be at the service of the summer term students.

Observation School.

The Normal College observation school will continue through the summer term, and this will afford an opportunity for the students in the education department to observe the practical application of the principles they are studying.

Visitors.

Friends of education, who are passing through the city and wish to drop in for a day to see the work of the college will be cordially welcomed. All such should register in the visitors' record in the President's office. They may obtain meals at the dining hall. The people of Hattiesburg and vicinity will be welcomed to all general lectures at 11:45 a. m. and all free evening lectures. Should they wish to visit class-room lectures, they should arrange for this at the President's office.

Study Hours.

There will be regular study hours observed in the dormitories, and during these hours every student will be expected to be in his own room. Persistent neglect of, or refusal to observe, this regulation, will result in a forfeiture of the privilege of rooming in the dormitories.

Room Reservation.

By use of three single beds in each room, the dormitories of the Normal College will provide comfortable accommodations for between 500 and 600 students. As there will doubtless be more than this who wish to come, it will be necessary to assign rooms in the order in which applications are received. Every application for a room must

be accompanied by the matriculation fee. Under no circumstances will a room be reserved without this advance deposit. No reduction in this fee will be made for late comers.

Mail and Express.

Students should have their mail addressed to "Station A, Hattiesburg." It will be delivered to them through the post-office at the college.

A long distance telephone in Mississippi Hall (Cumberland 9122) insures quick telephone or telegraph communications in case of necessity.

Express packages should be addressed "Care Normal College."

How to reach the College.

On reaching Hattiesburg, take the Normal College (or Hardy) street car at the intersection of Pine and Main streets, one block from G. & S. I station, about five blocks from Southern station. Do not leave this car until it reaches the end of the line at the college grounds.

(Do not take a cab or hack to come to the college as this is a needless expense.)

If in doubt, call the college by Cumberland 'phone (either 690 or 968. If at night, call 363, or 9122.

Baggage.

The college has arranged to haul the students' trunks from the station to the college at a much lower rate than would be charged by local drays. It is important, therefore, that students hold their trunk checks till they reach the college, then turn over to the college secretary.

A trunk tag, showing location and number of room to which trunk is to be delivered will be mailed to each student who registers in advance. This should be attached to the trunk before it leaves its starting point, and will save confusion and delay at this end of the line.

EXPENSES

Matriculation Fee.

All students will pay the usual matriculation fee of five dollars (\$5) on entrance. No reduction will be made for late comers. The matriculation fee is paid only once for the six terms. But on account of especial expense incident to the Summer Term it will be necessary for each student enrolled for that term to pay the matriculation fee.

Student Activities and Library Fee.

A fee of one dollar and fifty cents per term is charged for support of library, athletics, band, literary societies and all other student organizations.

Medical Attention.

During the Summer Term the hospital privileges, with medical attention and medicine, will be furnished to every student in the dormitories. A fee of one dollar per term is charged for this service.

Tuition.

No tuition fee will be charged, provided the student is a teacher or is preparing to teach.

Books, Etc.

There is a book store in the college building, where books may be purchased.

Board.

Dormitory students will deposit \$25 on entrance and be given board at cost on the co-operative basis. Those remaining as much as one week but less than three weeks will pay \$6.00 per week. Those remaining less than one week will pay 35 cents per meal. Meal tickets may be purchased at the secretary's office. The cost of board including laundry, on the co-operative plan will probably not exceed \$20 per month.

(Note that no room will be reserved without the advance payment of the matriculation fee.)

Laundry.

Laundry expense is charged in the board account for each term.

Articles To Be Furnished by Students.

The dormitory rooms are furnished only with beds, mattresses, dresser, table and chairs.

Each dormitory student must bring from home: 2 pairs sheets (for single bed), 1 pillow, 2 pillow cases, 1 bed-spread, 1 pair sash curtains, toilet soap, drinking glass, spoon. They should also bring towels.

NORMAL COLLEGE COURSES.

The regular teachers' courses offered by the Normal College are:

1. A Certificate Course covering a full high school course and certain college work above the common school grades, the completion of which entitles the student to a five year State license.

2. A Professional (Diploma) Course, based on the work of the certificate course and including an additional two and three-fourth years. The completion of this course entitles the student to a diploma which is the equivalent of a Professional Life License in Mississippi.

3. A Degree course, based on the diploma course and covering in addition to that course 30 hours of college work, making a total of 96 hours (-80 college hours). This course leads to the B. S. degree.

OUTLINE OF CERTIFICATE COURSE

An "hour" of work is the equivalent of five 60-minute recitations per week for one term (six weeks). That is, 30 recitations. The successful completion of one hour's work gives one "credit."

The total number of hours for a certificate is 84.

A student will not be allowed to take more nor less than

twenty recitations per week. (But circumstances may justify an exception to this rule, by special Faculty permission.)

It requires a double period of laboratory work to constitute a recitation in counting up work and credits. The work in Drawing, Manual Arts, Home Economics, and some work in other subjects is laboratory work.

An actual attendance of not less than TWO TERMS is required for the Certificate course.

Students without high school training must do the following work for the completion of the Certificate course:

- Group 1. English—15 hours, in courses 1, 2, 3, 4, 5, 6¹.
 - Group 2. Mathematics—12 hours, in courses 3, 4, 5, 13.
 - Group 3. Social Studies—12 hours, in History 1, 2, 3, 4; Civics 1.
 - Group 4. Ten hours: In Science 1, 3, 4; Hygiene 1, 5; Geography 1, 2.
 - Group 5. Ten hours: In Agriculture 1, 2, 3, 10; School Music 1; Drawing 1, 2; M. T. 1, 2, 3; Home Science 2, 3, 10; Penmanship 1.
 - Group 6. Education 9 hours, in courses 1, 2, 3, 5, 6, 10, 11, 12. (All college work.)
 - Group 7. Free Electives—16 hours in any high school work offered. (2 hours may be in physical education)
- Total for certificate—84 hours.

ADVANCE CREDITS ON CERTIFICATE COURSE.

1. Graduates of four-year accredited high schools will only need to take 9 hours in group 6 (Education), and 7 hours to be selected by the classification committee,—all college work.

2. Graduates of three-year accredited schools will receive 60 credits on entrance and will need to take in addition 9 hours of Education and 15 high school credits.

3. Graduates of two-year accredited schools will receive 40 credits on entrance and will need to take 9 hours of Education and 35 high school credits.

4. Graduates of one-year accredited schools will receive 20 credits on entrance and will need to take 9 hours of Education and 55 high school credits.

5. Work done in Summer Schools and Colleges will be given due credit.

6 Advance high school credits may also be obtained by taking entrance examination.

NOTE: Accredited schools will be classified according to the official lists of the state accrediting commission.

OUTLINE OF DIPLOMA COURSE

An "hour" of work is the equivalent of five 60-minute recitations per week for one term (six weeks); that is, 30 recitations. The successful completion of one hour's work gives one "credit."

The total number of hours for a diploma is 66 (above full high school graduation). These 66 Normal College credits are equal to 55 regular college hours.

Each student shall take twenty recitation per week unless exception is made by the faculty.

It requires a double period of laboratory work to constitute a recitation; that is, it requires 60 periods of laboratory work to constitute one hour of work.

An actual attendance of not less than **FOUR TERMS** is required for the diploma course.

The following work (all of it college work) is required for the completion of the diploma course:

Group 1. English—13 hours.

Group 2. Mathematics—4 hours.

Group 3. History and Social Economics—6 hours.

Group 4. Science, Hygiene, and Geography—9 hours.

Group 5. Agriculture, School Music, Drawing, Penmanship, Manual Training, and Home Economics—6 hours.

Group 6. Education—15 hours.

Group 7. Free Electives (To be chosen from any college work offered)—13 hours (6 hours may be in physical education.)

Total for Diploma—66 hours (or 55 college hours.)

OUTLINE OF DEGREE COURSE

The total number of hours required for the B. S. degree is 96; based on 16 units of H. S. preparation, that is, 30 hours in addition to the 66 required for the diploma.

These 96 hours are equal to 80 college hours.

An actual total attendance of not less than **SIX TERMS** is required of applicants for the degree.

The following work (all of it college work) is required for the degree. (This includes the work required for the diploma):

Group 1. English—17 hours.

Group 2. Mathematics—5 hours.

Group 3. History and Social Science—9 hours.

Group 4. Science, Hygiene, and Geography—12 hours.

Group 5. Agriculture, School Music, Drawing, Penmanship, Manual Training, and Home Economics—7 hours.

Group 6. Education—17 hours.

Group 7. Free Electives (to be chosen from any college work offered)—29 hours (7 hours may be in physical education.)

RENEWAL OF LICENSE

License renewal work may be done during any term of the session. Many teachers come for this purpose during the fifth term (March 5th), the sixth term (April 16th), and the seventh term (May 28th).

1. The courses that will meet renewal requirements are:

Education—Any classes offered.

English—Any classes offered.

Social Studies (History and Social Economics)—Any classes offered.

Hygiene and Physical Education (Hygiene 5) may be substituted for the Social Study.

Elective—Any other work not previously taken.

2. A license expiring any time within one year preceding or one year following the close of any Normal College term may be renewed (extended) for one year by completing the renewal requirements during that term.

3. A third grade license cannot be renewed.

A Home Science or other special license may be renewed by taking a prescribed course in same.

4. A Primary License may be renewed by taking a prescribed course, provided the applicant furnishes satisfactory evidence of having had the equivalent of 14 units of high school preparation.

5. A graduate of an agricultural high school, whose high school course has included two units (not less than 64 weeks, 5 recitations per week) of Education, may have diploma validated as a first-grade license for one year by taking renewal work any term within one year after graduation. This privilege is open only to graduates of those agricultural high schools which are certified to in the Department of Education, as doing the two units in Education.

6. Thirty days actual attendance will be required for renewal, but unavoidable absence to the extent of not more than six days, due to illness, may be excused by the director and shall not be counted against the teacher's attendance.

7. Renewal work begun in one normal may be completed in another on presentation of detailed statement signed by the director of the first normal.

8. The law fixes the renewal fee at \$1.50, which should be paid to the director (in form of P. O. Money Order) and by him forwarded to the State Board of Examiners, together with the license that is to be renewed. Renewed licenses are valid in any county in the state for the year covered by the renewal stamp.
